

Micronized Robank SaleTime

Equi-NIZE[®]

- Robank Equi-**NIZE**[®] SaleTime has been specifically formulated for young growing horses undertaking a sales preparation where a complete feed is required, that delivers a controlled energy source, meeting the needs for growth and body condition, where hair coat quality and that sales finish is needed.
- Robank Equi-**NIZE**[®] SaleTime is a grain based complete textured feed that utilises the latest technology of Micronizing to cook the grains in the feed and change the starch structure in the grain, it is a high fat feed and includes unique fibre sources to give energy for growth without overloading on grain. The combination of high quality grains and protein sources along with the Micronizing process makes this feed highly palatable and digestible to the horse.
- Robank Equi-**NIZE**[®] SaleTime contains a highly fortified balancer pellet that has all the Vitamins and Bio-Plex[®] minerals as well as the digestive aids Yea-sacc[®] and Bio-mos[®]. This unique combination of organic minerals ensures maximum utilization by the young growing horse, which assists in the development of a strong skeleton and in addition ensures these nutrients are absorbed by the horse by eliminating separation of them in the feed.
- Robank Equi-**NIZE**[®] SaleTime includes Beet Pulp, a super fibre which is a highly fermentable fibre and is highly digestible, it is a good source of digestible energy for the horse.

KEY FEATURES:

- Includes BioPlex[®] minerals (zinc, copper and manganese) for maximum absorption and retention which aids in healthier hooves, bones and cartilage development.
- Utilises beet pulp for a highly fermentable energy source.
- Yea-Sacc[®] and Bio-Mos[®] to improve fibre digestion. Helps enhance immune function & maintain good digestive health during periods of stress.
- 100% organic selenium in the form of Sel-Plex[®] which is important for immune function, antioxidant defence protecting cells in the body and growth.
- High levels of fat to assist in hair coat condition, giving the shine on sale day.

FEEDING DIRECTIONS

Weanlings - 1.5kg - 3kg per day / Yearlings 3 - 4kg per day
 Feed Robank Equi-NIZE[®] SaleTime has been designed for horses in sales preparation and should be used as such. If a specific individual is requiring additional body weight then oil (fat) can be added up to 120mls per day or a straight grain such as oats or Equi-NIZE[®] barley can be added. No additional vitamin or mineral is needed as the feed is fully fortified for young growing horses at the recommended feed rate. Feed in conjunction with good quality free choice hay and pasture. An electrolyte such as QUENCH[®] should be added to help maintain correct hydration particularly in hot weather conditions to assist hydration and additional electrolyte can be provided before transport.

When fed as per directions, no other vitamin and mineral supplements are necessary.

NUTRIENT ANALYSIS - as fed

Energy	13.MJ/Kg
Fibre	8%
Crude Protein	17%
