

Equi-NIZE[®]

Micronized Robank Lib-ER-ate

A feed formulated for horses that suffer from Exertional Rhabdomyolysis (ER) and other disorders that effect muscles in performance horses.

- Robank Equi-**NIZE**[®] Lib-ER-ate has been specifically formulated to provide high levels of energy to Racing and Performance horses that require a high calorie diet without oats, by utilising a unique blend of ingredients that helps maintain consistent performance.
- Robank Equi-**NIZE**[®] Lib-ER-ate uses the technology of micronizing, this cooks the grains in the feed and changes the starch structure in the grain, which helps to increase digestibility in the small intestine. Lib-ER-ate also utilises high fibre energy sources in the form of beet pulp (super fibre) and lupins which have minimal starch. In addition Lib-ER-ate is free from maize and uses a proprietary blend of vegetable oils to increase fat levels.
- Robank Equi-**NIZE**[®] Lib-ER-ate is a fully fortified complete feed and is unique in that it uses 100% organic selenium in the form of Sel-Plex[®], this acts as a powerful antioxidant and assists with the protection of the muscles in the horse.

KEY FEATURES:

- Includes Bioplex[®] minerals (zinc, copper and manganese) for maximum absorption and retention which aids in healthier hooves, bone and cartilage repair, including 100% organic selenium.
- Derives energy from fats and fibre by using beet pulp and fat through a special blend of vegetable oil for sustained energy.
- Contains Bio-Mos[®] and Yea-Sacc[®] to improve fibre digestion and help enhance immune function.
- Free from maize.
- Contains 1,000IU/kg of vitamin E to assist with muscle function.

INGREDIENTS:

Robank Equi-**NIZE**[®] Barley Flakes, Robank Equi-**NIZE**[®] Lupins, Robank Equi-**NIZE**[®] Mixer Pellets (Bioplex[®] Minerals, Sel-Plex[®], Bio-Mos[®], Yea-Sacc[®], Vitamins & Protein Sources), Sunflower Seeds, Robank Equi-**NIZE**[®] Beet, Molofos Gold[®], Vegetable Oils, Vitamin E & Flavouring.

Equi-NIZE[®]

Micronized Robank Lib-ER-ate

FEEDING DIRECTIONS

This feed has been designed for Performance horses that require a feed for assisting with problems associated with muscle tissue whilst in training and competition.

Robank Equi-NIZE[®] Lib-ER-ate can be fed at the following rate:

Moderate Work 3-5kg per day

Intense Training 4-8kg per day

Feed in conjunction with good quality hay and an electrolyte such as "Quench[®]" should be added to help maintain correct hydration.

When fed according to directions, no other vitamin and mineral supplements are necessary.

As with all feed changes, introduce Robank Equi-NIZE[®] Lib-ER-ate gradually over a 7-14 day period.

NUTRIENT ANALYSIS - as fed

| | |
|--------------------|-------------|
| Energy | 3.07 Cal/kg |
| Fibre | 10% |
| Crude Protein | 15% |
| Fat | 10% |
| Calcium | 1% |
| Phosphorus | 0.5% |
| Manganese | 170ppm |
| Iron | 330ppm |
| Zinc | 170ppm |
| Copper | 60ppm |
| Selenium (Organic) | 0.8ppm |
| Vitamin E | 1000 IU/kg |

Contains digestive aids Bio-Mos[®] and Yea-Sacc[®]
