

Robank Feeds

Robank Extruded Mare

- Robank Extruded Mare has been specifically formulated for mares and young growing horses and stud stock.
- Robank Extruded Mare is a complete breeding feed incorporating some of the latest technology available, utilising organic minerals and digestive aids.
- Robank Extruded Mare is a large easy to feed extruded nut that horses will find easy to pick up from the ground or the feed tub. The specific formula means that all the important nutrients will be taken in by the horse and not wasted through separating of ingredients.
- Robank Extruded Mare is available in bags, bulka bags and reusable kegs, so there is an option to suit all types of breeding operations from small to large farms.

KEY FEATURES:

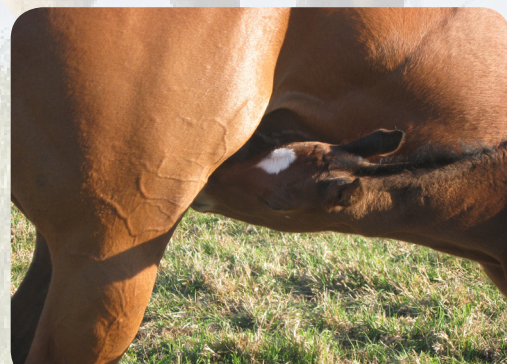

- **Contains chelated minerals (Bioplex®) for superior bioavailability of organic trace minerals supplying nutritional support during reproduction and foal trace mineral status at birth.**
- **Sel-plex® organic selenium, assists with prompt, complete expulsion of placenta, increased colostrum and milk selenium content and optimise immune response.**
- **Yea-Sacc®, improves fibre digestion and stabilized cecal/colon pH benefiting mares with more milk production, improved mare condition and assists phosphorous availability for balanced sound growth**
- **Bio-Mos®, blocks colonisation of pathogenic bacteria and assists immune modulation and can boost immunoglobulins in colostrum.**

INGREDIENTS:

Bran/Pollard, Lupin, Barley, Wheat, Canola Meal, Oats, Soyabean Meal, Molafos Gold, Di-cal phosphate, Limestone, Salt, GEN Performance Premix, Canola Oil, Yea-Sacc®, Bio-Mos®, Robank Mixer Premix, Lysine, Methionine, EDDI.
