

# GASTRIC SUPPORT

A Pelleted Supplement for Mature Performance Horses

## GASTRIC SUPPORT

A pelleted supplement utilizing fibre, sea-derived minerals and GI Pro<sup>3</sup> probiotics proven to buffer stomach acid. Feed 30 to 60 minutes prior to exercise to buffer stomach acid and reduce the risk of ulcer formation.

## INGREDIENTS

Lucerne Meal, Soya Hulls, Marine-Derived Calcium, Magnesium Oxide, Dried Bacillus Subtilis/Bacillus Licheniformis Fermentation Products, Cane Molasses

## TYPICAL ANALYSIS

(Per 200g)

Crude Protein, min. ... 15.0 % (30g)  
Calcium, min ..... 3.5 % (7g)  
Magnesium, min ..... 1.0 % (2g)  
Bacillus Subtilis & Bacillus Licheniformis,  
min ..... 12.0 Billion CFU/kg

## STORAGE

Store in a cool, dry place (room temperature) away from direct sunlight.  
Please note bags are not waterproof.

## WARNING

Feed according to feeding guide provided on label, or upon the advice of your nutritionist.

## FEEDING GUIDE

Feed 200g of Gastric Support to a mature horse (450 – 550 kg) top-dressed on the regular grain mix.

Gastric Support can be fed a total of 3 – 4 times per day.

Gastric Support may be fed as a snack prior to training if a full grain meal is not fed.
